Sepsis is the #1 inpatient hospital expense in the US.

Nearly 270,000 Americans die from sepsis each year.

People with sepsis are 2-3 times more likely to be readmitted to the hospital.

1 person dies from sepsis every 2 minutes.

Sepsis cases per year have been on the rise in the US.

Sepsis is responsible for 13% of total US hospital costs.

The US spends $23.7 billion dollars on hospital care for patients with sepsis.

Sepsis is the #1 inpatient hospital expense in the US.

Sepsis cost Medicare more than $6 billion dollars in 2015 - more than any other inpatient discharge.
